Olivier Martel   Vincent Hubert

RALLY SAFE
(START FUNCTION)

1 **SELECT START: (ACTION)**

Click START to access START screen. When activated, **START** will turn blue

2 **SELECT STAGE: (ACTION)**

Select the appropriate stage from the drop down list. If you select the wrong stage, you will get a warning when the first car synchronizes with the tablet. Correct as required

3 **START TIME: (INFO)**

Initially blue. This time <u>must</u> turn white to confirm car has received the start time. If it does not change to white, unplug & plug USB antenna to re-sync and it should turn white
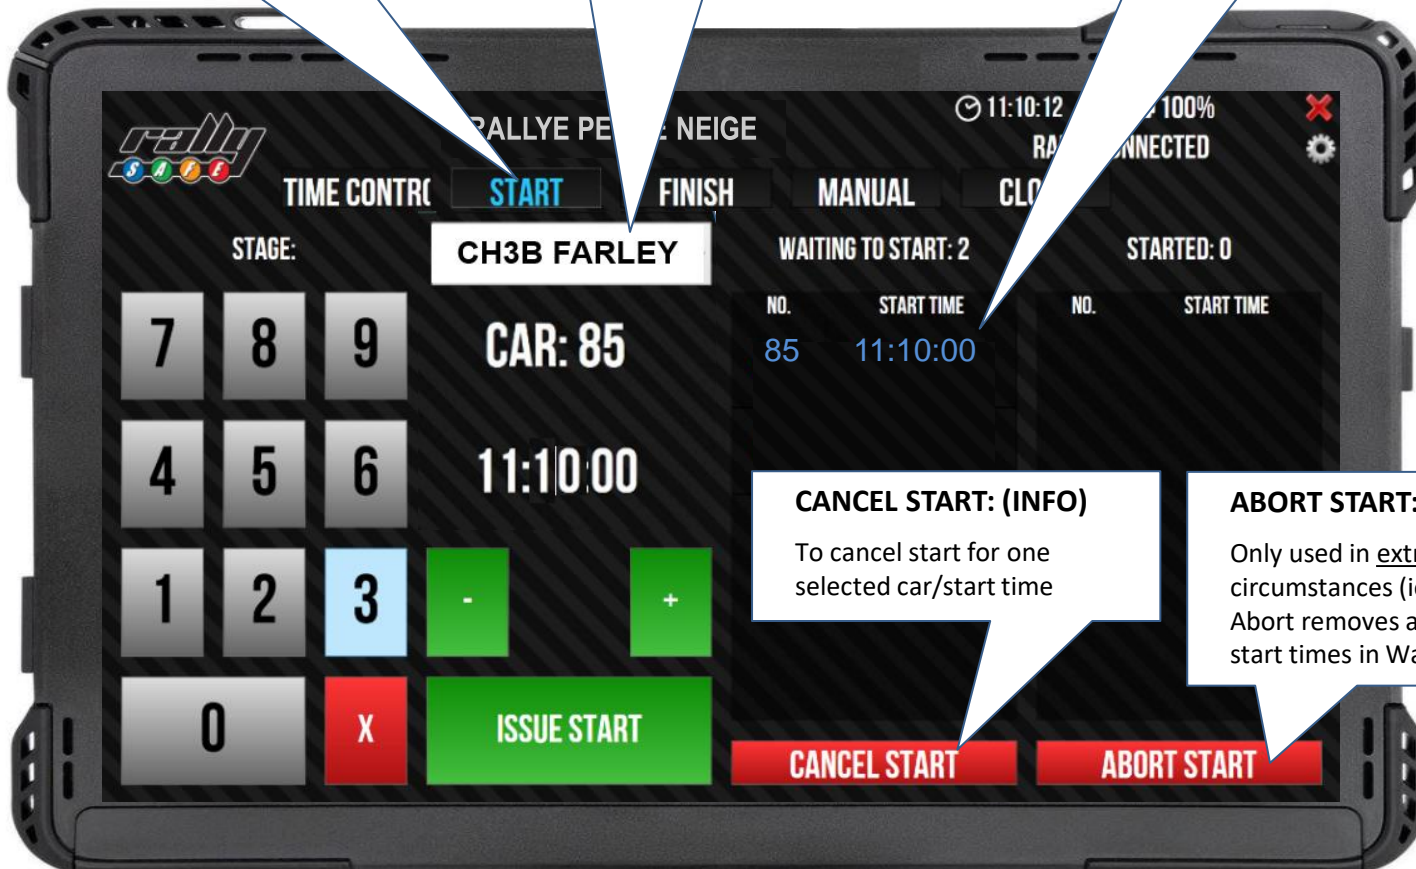

CANCEL START: (INFO)

To cancel start for one selected car/start time

ABORT START: (INFO)

Only used in <u>extreme</u> circumstances (ie Rally Stop). Abort removes all assigned start times in Waiting to Start

START TIME CONTROL
(ISSUE START TIME PROCEEDURE)

Zone de contrôle / Control Zone

4

Route / Red

Select START Function from the menu bar

Enter Car # using keypad

5

Route / Red

Use the **-** and **+** buttons to adjust the times if required and click **ISSUE START**
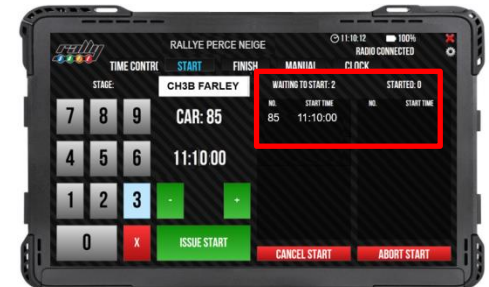

6

IMPORTANT:

Rally Safe will allocate the next 1 min interval start time to that car. If the first 5 cars require a 2 min interval, you will have to adjust the start time and add the extra minute to the Rally Safe default start time. Confirm the proper start time appears in "Waiting to Start" column
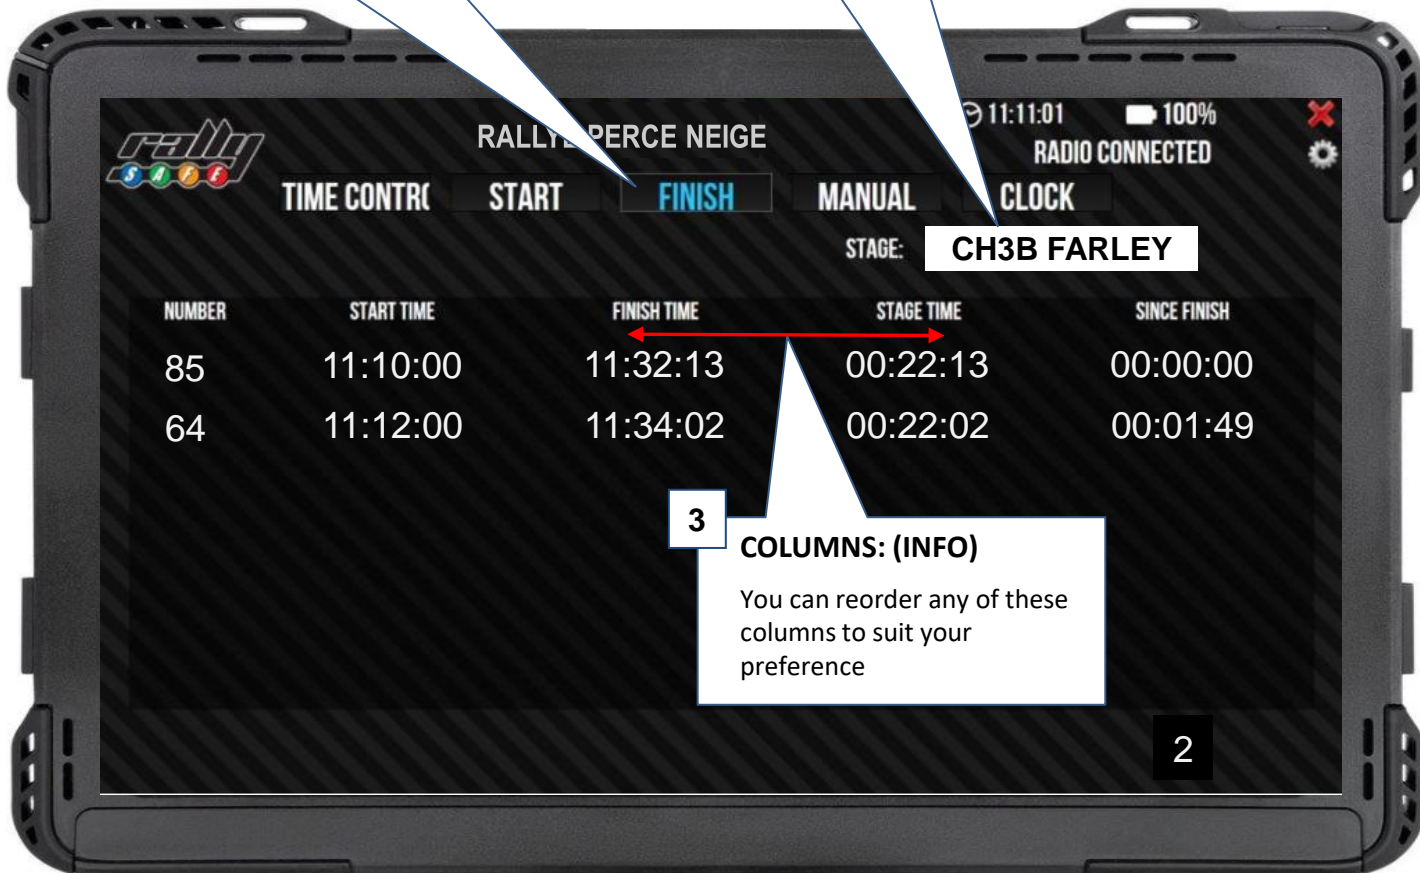

RALLY SAFE
(FINISH FUNCTION)

1

SELECT FINISH: (ACTION)

Click FINISH to access FINISH screen. When activated, **FINISH** will turn blue

2

SELECT STAGE: (ACTION)

Select the appropriate stage from the drop down list

3

COLUMNS: (INFO)

You can reorder any of these columns to suit your preference

2

FINISH TIME CONTROL
(FINISH PROCEEDURE)

Zone de contrôle / Control Zone

1

Route / Red

The time the vehicle crosses the flying finish will be relayed back by radio to the finish control (as a backup process)

2

STOP
Route / Red

As the vehicle comes into range, the tablet will display the results on the screen
